Threshold Quarterly Report ★ April 2008

Program Summary

Indonesia's program is helping to reduce corruption in the judiciary, providing support for the Anti-Corruption Commission, enhancing the performance of the Financial Transaction Reports and Analysis Center, and developing pilot e-procurement systems in five provinces. The program is also helping Indonesia build a robust and sustainable immunization system in difficult to reach areas.

Threshold Status

Status.....Implementation, Year 1

Threshold Information

Total Amount.....\$55 million

Agreement Signed.....November 17, 2006

Country Information

Population.....220,558,000*

GNI Per Capita Income.....\$1,280*

Program Highlights

- Members of the judiciary, including the courts' administrative staff, have received training on court budgeting, judicial ethics, and asset management. Together with ongoing reforms to human resource management and a comprehensive asset inventory which is underway, the Indonesia court system is becoming more transparent and accountable
- Already, more than 1,400 Supreme Court decisions have been published online under the threshold program.
- Four of five pilot provinces have begun to establish electronic procurement systems with the support of the threshold program, and the newly created Office of Government Procurement Policy will develop policy and procedures, monitor and evaluate implementation, and provide technical assistance.
- The Ministry of Health held a National Childhood Immunization Event on November 1, 2007 with support from the threshold program. Over 600 people participated in the event, which featured an active community health post. Provincial launches and advocacy events were also held in each of the program's seven priority provinces.
- As of December 2007, the threshold program had provided immunization program management skills training to over 4,600 provincial, district and health center staff. This will enhance implementation of the new national and local level immunization plans which are currently under development.
